Introduction: Wild Haven Estate, operating as The Elephant, Cheetah and Lion Experience, is relocating its immersive conservation and tourism activities to a new 1 km² site within the Zambezi National Park. This move is critical for the preservation of our existing elephant and cheetah populations, as the lease for our current site has expired and the land is earmarked for new developments. To ensure the continuity of our wildlife care and conservation efforts, Wild Haven secured a new lease agreement with Zimparks. The new site will feature similar infrastructure, including elephant (75m x 75m) and cheetah (50m x 50m) enclosures and supporting facilities. As these developments largely mirror our current operations, we anticipate no new environmental or social impact categories. Ractech (Pvt) Ltd has been contracted to conduct an Environmental and Social Impact Assessment to ensure sustainable implementation. Your valuable participation in this stakeholder consultation, by completing the enclosed questionnaire, is highly appreciated. Please feel free to use additional sheets if needed.

Name of Stakeholder……...

I.D Number …….

Contact Details (phone, email address) ……

1. **What environmental (social, economic or biophysical) concerns do you have about the proposed project?**
